

BOSTON BRAVES ARE TO MOVE TO ALLSTON

New Park to Be on Commonwealth Av On Former Golf Club Site.

Slightly More Than Mile Beyond Fenway Park ---Work to Be Rushed.

By T. H. MURNANE.

The new ball park for the Boston Braves will be situated on a part of the grounds once used as the Allston Golf Club course, facing Commonwealth av, and bounded by the Boston & Albany Railroad in the rear and by Babcock and Pleasant sts on the sides.

This information was given out at 5 o'clock yesterday afternoon at the Boston club's office in the Paddock Building, with Sec Nickerson on the receiving end of the long-distance telephone. The deal was made through W. J. McDonald.

Pres Gaffney, in New York, said over the telephone that the deal had been closed, and that Mr McDonald would confirm the news upon reaching Boston. Mr McDonald arrived home at 6 o'clock, having left New York on the 1 o'clock train, and said that he would draw up the final papers at once. He also wanted to compliment the club for picking out a fine site for its new home.

Much Work to Be Done.

The land was owned by W. Stanley Tripp. On the East side of the proposed new park is being erected a State armory, which will be finished in the early Spring. The old Allston Golf Club house is on a part of the land to be used as a ball park. Extending from the middle of the tract back to the railroad is a steep hill, with quite a swamp to fill in.

Babcock and Pleasant sts at present run only as far as Commonwealth av, Brookline. By crossing the avenue, one is in Boston, and these streets will soon be extended to the railroad.

Pres Gaffney said that he intended to ask the B. & A. RR. to build a station at the rear of the grounds. He also means to ask that the Boston Elevated run a spur track down Pleasant st with a lower grade entrance to the park.

The running time on through cars from Park st to the grounds will be about 12 minutes, through the new Subway running out Commonwealth

av. The distance is a little more than one mile from where the cars now stop for the Fenway Park patrons. From the new park there will be a fine view of the Charles River and of the Stadium on Soldiers Field.

Gaffney to Rush Work.

Pres Gaffney said that he had no further details to give out until after the meeting of the National League in New York next week. Then he will be able to announce the detailed plans. He also said that work will be started very soon after the meeting, and that he will be on hand to superintend the job and see that work is rushed through as no park ever was rushed before.

While it will be impossible to have things in shape for the opening game, he said, he felt quite sure that Pres Lannin will allow him to use Fenway Park until such time as he is ready for the big opening.

Cambridge residents can come to the games by way of the Cottage Farm Bridge. It will require a great amount of labor to level a piece of land large enough for an up-to-date ball park, especially if the grandstand is to face the east—and grandstands are usually arranged so as to protect the spectators from the afternoon sun.

The lot is 675 feet wide on Commonwealth av and runs back 850 feet to the railroad, having an area of 593,718 square feet, which is certainly land enough to build the roomiest ball park on. The price was not given out, but will be when the papers have been passed.

Johnson's Defection Hurts.

There was much disappointment felt yesterday in baseball circles, especially among American League sympathizers, over the news from the West that Walter Johnson had passed up the Washington club and signed with the Chicago Cubs.

Walter Johnson was a great favorite with the Boston fans until after the middle of last season, when he seemed to have lost his old effectiveness and was not the great puzzle of old. In fact, he slowed up in speed and seemed indifferent to the success of the Senators. Johnson had made the mistake of making an open statement that he was out for the money and would sign with the highest bidder. The Washington baseball public resented Johnson's attitude and refused to attend the games in that city to any great extent. This did not please the clever pitcher, and from then on he was silently flirting with the Federal League.

Being advised of the financial condition of the Feds, Manager Clark Griffith offered Johnson his same old salary and declared that he would go no higher, maintaining that he could hold Johnson on the bonus clause in his contract.

If he now carries out his threat to go to court with his old pitcher, it will mean no end of baseball arguments, and the game will be no better for the court proceedings. For the good of the game it would be a wise idea for Washington to say, "Go and good luck to you, Mr. Johnson."

However, Clark Griffith should have kept in closer touch with the clever box man; for, after all, the loss of every star means a loss to the American League as a whole, and there was no reason why a Federal League club with weak prospects should outbid an American League club.

EVERS A CHICAGO VISITOR.

Says Federal League Has Landed a Great Card in Johnson.

CHICAGO, Dec 4—Johnny Evers, former Cub second baseman, paid his first visit to Chicago since aiding the Bostonians to win the World's Championship last October. Johnny was all smiles. "It's good to get back again," said the Trojan. "I was coming anyhow, but this indoor game I am to play Sunday gave me a chance to kill two birds with one stone, and I took advantage of it."

The indoor game Johnny referred to is the benefit gotten up for the widow of Jimmy Doyle and for Arnold Hauser, the Cardinal shortstop.

"What do you think of the Walter Johnson case?" he was asked. "I don't care to try to say how Walter feels," replied Johnny. "I am convinced of this much: The Feds have made good in everything. They landed a great card in Johnson."
